Dear Practitioners

It is my great pleasure to announce that our second newsletter (Nov. 2010) was also a resounding success and it has been received by practitioners the world-over with enthusiasm. Inspired by the excellent case reports of patients treated with the 108CC box, a number of practitioners who were trained earlier (and so did not know about the CC box) have been pouring in over the last couple of months to procure the same!

It has been a very busy last few months with the 85th birthday celebrations and Christmas here in Prashanti Nilayam. Not only has there been an influx of devotees, and therefore patients, here in the ashram, but also, we have been visited by a constant stream of devotees who are interested in learning Vibrionics. It is wonderful to hear the fantastic results you have been getting with Vibrionics and about extraordinary cases of cures using this system. Just a reminder - it would be of immense value to other practitioners if you penned down your case reports so that we can share them with others in subsequent newsletters.

During the birthday celebrations, our practitioners here in Puttaparthi conducted a nine-day Sai Vibrionics

healing camp at the Prashanti Nilayam Railway Station. The dedicated team saw an average of 500 patients per day, starting from seven in the morning and going on till late in the evening. On 21st November, as the team was winding up at 9 pm, to their immense joy they noticed large patches of vibhuti on the photograph of Swami (see below) kept in one of the practitioner's 108CC box. Divine blessings from the Lord in the form of vibhuti! How kind Swami is to show us that He is with us always in this work - blessing us, guiding us, encouraging us and reassuring us that it is indeed His work that we are doing!

We always look forward to hearing from you – feedback about the newsletter, suggestions for future issues, your monthly reports and more interesting and inspiring case histories. Spare a few minutes and drop us an email. Meanwhile, enjoy this newsletter and, with Swami's continued grace, keep up the great job of 'healing'.

In loving service to Sai

Jit Aggarwal

Case Histories Using Common Combos

1. Uterine Cancer^{2703...Japan}

A 67-year old lady was diagnosed with cancer of the uterus and the doctor advised an operation. She approached a Vibrionics practitioner for help and she was given: **CC2.1 Cancers + SR350 Hydrastis + SR391 Kreosotum + SR537 Uterus...QDS**

Two months later, she had a hysterectomy (removal of uterus) even though the cancer was found to be less in the uterus. However, she had developed abdominal dropsy (fluid in the abdomen) and the cancer had spread to this area. The doctor said the cancer had reached the third stage and advised her to start radiation/chemotherapy treatment. She refused all allopathic treatment and continued to take Vibro remedies. The practitioner added the following remedies to her pills: **SR271 Arnica + SR345 Calendula + SR353 Ledum...QDS**

Two months later, the doctor was astonished to find the cancer had disappeared and she was completely cured. She continued to take the following Vibrionics remedies: **CC2.1 Cancers...QDS; SR248 Vessel of Conception...4 doses and SR298 Lachesis....2 doses.**

*This is a wonderful example of a complete healing. But note that although the practitioner used some single remedies to support the Common Combos she gave (because a Vibrionics machine was available), the following would have worked equally well: **CC2.1 Cancers + CC2.3 Tumours + CC8.1 Female Tonic + CC8.4 Uterus***

2. Sickness in Chickens^{2715...Germany}

A Vibrionics practitioner's mother had 23 hens. All but three of them died of an infection that afflicted and killed all other local chickens in the area. Of the three that survived, one was particularly weak and was finding it difficult to hold its head up, walk straight or enter the chicken coop. This hen was kept in the house away from the other two. The vibro practitioner sent the following remedies to her mother for the chickens: **CC1.1 Animal Tonic + CC18.4 Stroke...TDS**

The practitioner's mother put the pills in the beaks of her sick hens and within a few days, there was a remarkable improvement in their condition. The weakest hen was soon able to hold its head up, eat properly and walk to the chicken coop again. A week later, it was so well that it started laying eggs, so the dosage was reduced to OD. Then the same remedy was given to the other two hens that were underweight and weak, and in a short while, they also recovered. The practitioner's mother now has three perfectly healthy hens which gives her some consolation for losing the rest of the flock.

3. Infected Teeth^{1339...USA}

For two years, a 59 year-old woman was suffering in two of her teeth from a low-level infection and sensitivity to hot and cold foods including liquids. The dentist took x-rays of her teeth and advised root canal treatment to both teeth and removal of the nerves to stop the pain. The day before the treatment was due to begin the practitioner gave this patient the following remedies: **CC11.6 Teeth-decay + CC21.11 Abscess...TDS**

The patient took three doses prior to the dental appointment and offered a prayer to Sai Baba for healing. As she sat in the dental chair, she said she felt an 'internal shift' and knew that her teeth were healed. Much to the surprise of the dentist, he discovered that the roots of both teeth were perfectly healthy and treatment was not required. By Swami's grace, not only was the patient spared the pain of the dental procedure, she managed to avoid getting into debt over the expensive treatment for which she had agreed to pay US\$ 2,300!

4. Saving a Diabetic's Foot from Amputation^{2640...India}

A 54-year old man who had been suffering from diabetes for many years had undergone amputation of all five toes of his right foot. He was hospitalised with the possibility of having his right foot and fore leg up to the knee amputated. A Vibrionics practitioner gave him the following combos in the hope that this could be prevented: **#1. NM20 Injury + NM25 Shock + NM32 Vein-Piles + SM15 Circulation + SR264 Silicea**

(200C) + SR293 Gunpowder + SR298 Lachesis (30C) + SR325 Rescue + SR408 Secale Corn (30C)...TDS

#2. SM17 Diabetes + SM39 Tension + SM41 Uplift...TDS

Fifteen days later, the patient was told by his doctor that he was much better and that there was no need for amputation but he may be required to undergo plastic surgery. The Vibro practitioner asked him to continue taking the remedies. A month later, the patient was discharged from the hospital and told that he did not require plastic surgery. With Swami's grace, this poor rickshaw puller was able to continue his profession and provide for his family. The entire treatment took 45 days.

*As the 108CC box was not available at the time, the healer used a Vibrionics potentiser for preparing the remedies. Had the healer used the 108CC box, the following could have been given instead and we believe with equal success: **CC3.7 Varicose Veins + CC21.11 Abscess + CC6.3 Diabetes...TDS.***

+++++
Note: When practitioners have cases that are of particular merit and they want those cases to be considered for publication in the newsletter as inspiration to others, it is important that each case be fully reported; giving age and gender of the patient, length of illness or condition, combos used, amount of time taken for healing and any other relevant information that would be of interest.

☞A Special Blessing ☞

☞The Prescription Lenses Leela☞

Ana is a dedicated Vibrionics practitioner who regularly visits and treats patients in villages near Puttaparthi with 108CCs. Recently she found that many people had eye problems in one particular village. Though medicine could help, twenty-seven of them required prescription glasses that they could not afford. Ana explained to them that she only dispensed Vibro medicines and that she does not provide spectacles. As Ana and her husband were leaving, they requested her to bring prescription glasses for them on her next visit and her husband half-jokingly said that they would see what Swami could do!

A few weeks later, a friend came to see Ana and her husband. He was in a dilemma because just before leaving his country someone gave him a box of prescription glasses to take to India to give to people who needed them. Reluctantly, this man brought them with him to Puttaparthi and tried to offer them to Swami but was told that Swami didn't want them. So, just like that, out of the blue, a box of prescription glasses fell into the laps of Ana and her husband!

On their next visit to the village, they took the box with them hoping that at least a few pairs would suit the people who needed glasses. The excited villagers crowded around the box. One person picked up a pair and tried it on but it didn't suit his eyes. Ana offered him another pair that turned out to be just perfect! Another man took the first pair, tried it on and found it just right for his eyes! One by one, to the delight and astonishment of all those present, all those who needed glasses found a pair that was just right for their eyes and gave them perfect vision. One pair was left in the box and Ana was just about to pack up when a lady hurried up to them and said that she also needed glasses. Ana was not surprised when the last pair in the box fitted the lady perfectly!

Every single pair of random prescription glasses found a home and each villager who needed glasses received a pair that gave him perfect vision! Can this be the work of anyone other than the All-Knowing and All-Pervasive Lord Sai!

☞The Answer Corner☞

Question: What do QDS, TDS, BD and OD mean?

Answer: QDS is 4 times a day; TDS stands for 3 times a day; BD means twice a day and OD is once a day. These abbreviations are from Latin words. 6TD stands for 6 times a day.

Question: Is there an inexpensive and easy way to purify water?

Answer: There is a cheap way to purify water. Put the water in a Bristol blue (dark blue) bottle and expose it to direct sunlight for 3 minutes and the water will be fit for drinking! It takes longer if there is no direct sunlight - 10 minutes in daylight and up to 30 minutes in artificial light.

Question: *Is it possible to revive a badly functioning gland such as a thyroid gland?*

Answer: Yes, any gland can be revived and restored with vibrations.

Question: *Can these remedies work at the mental level?*

Answer: In fact, these remedies work at all three levels - body, mind and spirit because this is truly a holistic system of healing. However, to eliminate a particular disease from the system altogether, it is best to investigate its root cause and treat the patient for the cause as well as for the symptoms. The cause may be a shock, injury, stress, tension, infection etc.

☪Health Tips☪

The Amazing Cucumber

This information was in the *New York Times* several weeks ago as part of their "Spotlight on the Home" series that highlighted creative and fanciful ways to solve common problems.

- 1.** Cucumbers contain most of the vitamins you need every day. Just one cucumber contains Vitamin B1, Vitamin B2, Vitamin B3, Vitamin B5, Vitamin B6, Folic Acid, Vitamin C, Calcium, Iron, Potassium, Zinc, Magnesium and Phosphorus.
- 2.** Feeling tired in the afternoon? Put down the caffeinated soda and pick up a cucumber. Cucumbers are a good source of Vitamins B and Carbohydrates which can provide that quick pick-me-up that can last for hours.
- 3.** Tired of your bathroom mirror fogging up after a shower? Try rubbing a cucumber slice along the mirror. It will eliminate the fog and provide a soothing, spa-like fragrance.
- 4.** Are grubs and slugs ruining your flower planting beds? Place a few slices in a small pie tin and your garden will be free of pests all season long. The chemicals in the cucumber react with the aluminium to give off a scent undetectable to humans but drive garden pests crazy and make them flee the area.
- 5.** Looking for a fast and easy way to remove cellulite before going out or going to the pool? Try rubbing a slice or two of cucumber along your problem area for a few minutes. The phyto-chemicals in the cucumber cause the collagen in your skin to tighten, firming up the outer layer and reducing the visibility of cellulite. Works great on wrinkles too!!!
- 6.** Want to avoid a hangover or terrible headache? Eat a few cucumber slices before going to bed and wake up refreshed and headache free. Cucumbers contain enough sugar, vitamin B and electrolytes to replenish essential nutrients the body lost, keeping everything in equilibrium, avoiding both a hangover and headache!!
- 7.** Looking to fight off that afternoon or evening snacking binge? Cucumbers have been used for centuries and often used by European traders, trappers and explorers for quick meals to thwart off starvation.
- 8.** Have an important meeting or job interview and you realise that you don't have enough time to polish your shoes? Rub a freshly cut cucumber over the shoe, its chemicals will provide a quick and durable shine that not only looks great but also repels water.
- 9.** Out of WD-40 household oil and need to fix a squeaky hinge? Take a cucumber slice and rub it along the problematic hinge, and voila, the squeak is gone!
- 10.** Stressed out and don't have time for massage, facial or visit to the spa? Cut up an entire cucumber and place it in a boiling pot of water. The chemicals and nutrients from the cucumber will react with boiling water and be released in the steam, creating a soothing, relaxing aroma that has been shown to reduce stress in new mothers and college students during final examinations.

11. Just finished a business lunch and realise you don't have gum or mints? Take a slice of cucumber and press it to the roof of your mouth with your tongue for 30 seconds to eliminate bad breath, the phytochemicals will kill the bacteria in your mouth responsible for causing bad breath.
12. Looking for a 'green' way to clean your faucets, sinks or stainless steel? Take a slice of cucumber and rub it on the surface you want to clean, not only will it remove years of tarnish and bring back the shine, but it won't leave streaks and won't harm your fingers or fingernails while you clean.
13. Using a pen and made a mistake? Take the outside of the cucumber and slowly use it to erase the pen writing, also works great on crayons and markers that the kids have used to decorate the walls!!

❧Divine Words from the Healer of Healers❧

"Seva is the worship you offer to God in the heart of everyone"

...Sathya Sai Baba

"The most important thing is that one cannot find anything greater than service in the world. We have to dedicate our lives for service. A person who does not render service is not a human being. He is worse than a beast. We should never give up service. Service is our life breath. Service is our life. Service is our goal."

...Sathya Sai Baba

❧Announcements❧

Forthcoming workshops in India

Gujarat: There will be the 23rd workshop for Assistant Vibro Practitioners and the 12th workshop for Junior Vibro Practitioners from 8 to 10 April 2011.

ATTENTION: If your email address changes in the future, please inform us at news@vibrionics.org as soon as possible. Please share this information with other vibro practitioners who are not aware of this new email service. Thank you for your cooperation.
